OBJECTIVE

Aspiring Front-End Developer skilled in HTML, CSS, JavaScript, Bootstrap, and UX Design. Passionate about creating responsive, user-friendly interfaces with modern web technologies. Seeking a role to contribute to real-world projects and grow with industry experts.

CERTIFICATIONS

I am certified in the UI/UX course at Tech Mahindra Smart Academy for Digital technologies in Visakhapatnam

ACCOMPLISHMENTS

I was working as a volunteer at Samasreya Foundation in Visakhapatnam. Through this role, I have developed leadership skills and effective communication with people. I actively participate in collecting funds to support underprivileged individuals, which brings me a deep sense of happiness and fulfilment.

ACADEMICS

• MASTER OF BUSINESS ADMINISTRATION

JNTU University

2022 - 2024

2019 - 2022

The purpose of the B.Com General course is to provide foundational knowledge in commerce, accounting, and business practices to understand real-world trade, finance, and management concepts.

• COMPUTER SCIENCE AND ENGINEERING

Board of Intermediate

2019

The purpose of the CSE vocational course in Intermediate is to build basic knowledge in computer science, programming, and IT skills to prepare students for real-world technical applications and further studies in the tech field.

• SSC

Secondary School Certificate.

2017

STRENGTHS

- Adaptable new technologies.
- Good communication and interpersonal skills.
- Positive attitude.
- Leadership and coordination skills from volunteer experience

PROJECTS

Project Title: YETFLIX – OTT Landing Page.

Description: Developed a responsive and visually engaging OTT platform landing page inspired by Netflix using only HTML and inline CSS. The project features dynamic sections such as hero banners, subscription prompts, trending media, membership benefits, FAQs, and a custom-styled footer. It simulates a real-world product with a clean layout, user-friendly interface, and mobile-friendly elements. This project showcases skills in semantic HTML structuring, inline styling, and UX-focused layout design.

Project Title: Gym Fitness Website – WordPress UX Design

Description: Designed a user-friendly fitness website using WordPress with a focus on clear navigation, visual hierarchy, and goal-oriented interaction. The site caters to gym-goers looking for quick access to services, programs, and contact details. UX principles such as intuitive layout, consistent design patterns, and mobile responsiveness were key to the development.

HOBBIES

- Bodybuilding and Fitness Training – passionate about health, discipline, and strength building
- Playing Strategy Games like Chess – sharpens logical thinking and decision-making skills
- Watching Action Movies – for cinematic experiences
